Per ridurre i tempi e i costi di ristrutturazione il centro ricerca AZZURRA ha messo a punto il wc NUVOLA con scarico traslato, che **può essere installato senza dover modificare gli impianti di scarico esistenti**. Scopri tutte le specifiche tecniche a pag. 350.

To reduce the time and costs of restructuring, Azzurra technical department has developed the NUVOLA WC with adjustable flush system, which can be installed without modifying the existing flush installations. See all the technical specifications on page 350.

nuvola H48

H48

Per andare incontro alle nuove esigenze di mercato AZZURRA propone all'interno della collezione NUVOLA, il wc e bidet terra H48. Dai dati ISTAT, si evince che la nostra altezza media è in costante aumento. (Italia, 175cm). Nei paesi europei e extraeuropei, tale soglia in alcuni casi è stata già raggiunta e superata.

Ad esempio:

germania. 180cm

olanda. 182,5cm

sud africa. 177,7cm

australia. 177cm.

H48 nasce per agevolare la seduta, andando incontro alle nuove ergonomie d'uso.

In linea con la collezione, H48 può essere montata con scarico a terra o parete.

H48

To meet new market demands AZZURRA proposes, as part of NUVOLA collection, the H48 floor toilet and bidet.

According to ISTAT analysis, our average height is constantly increasing. (Italy, 175cm).

In European countries and outside Europe, the above threshold, in some cases, has already been reached and exceeded. For example:

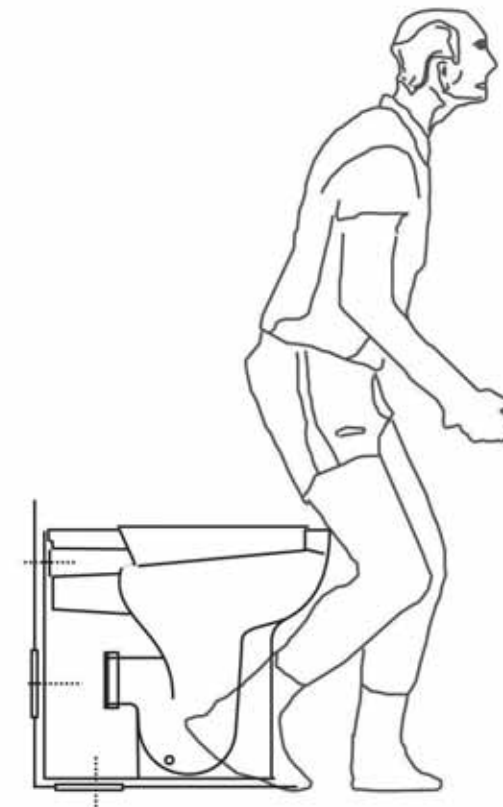

Germany. 180cm

Netherlands. 182.5 cm

South Africa. 177.7 cm

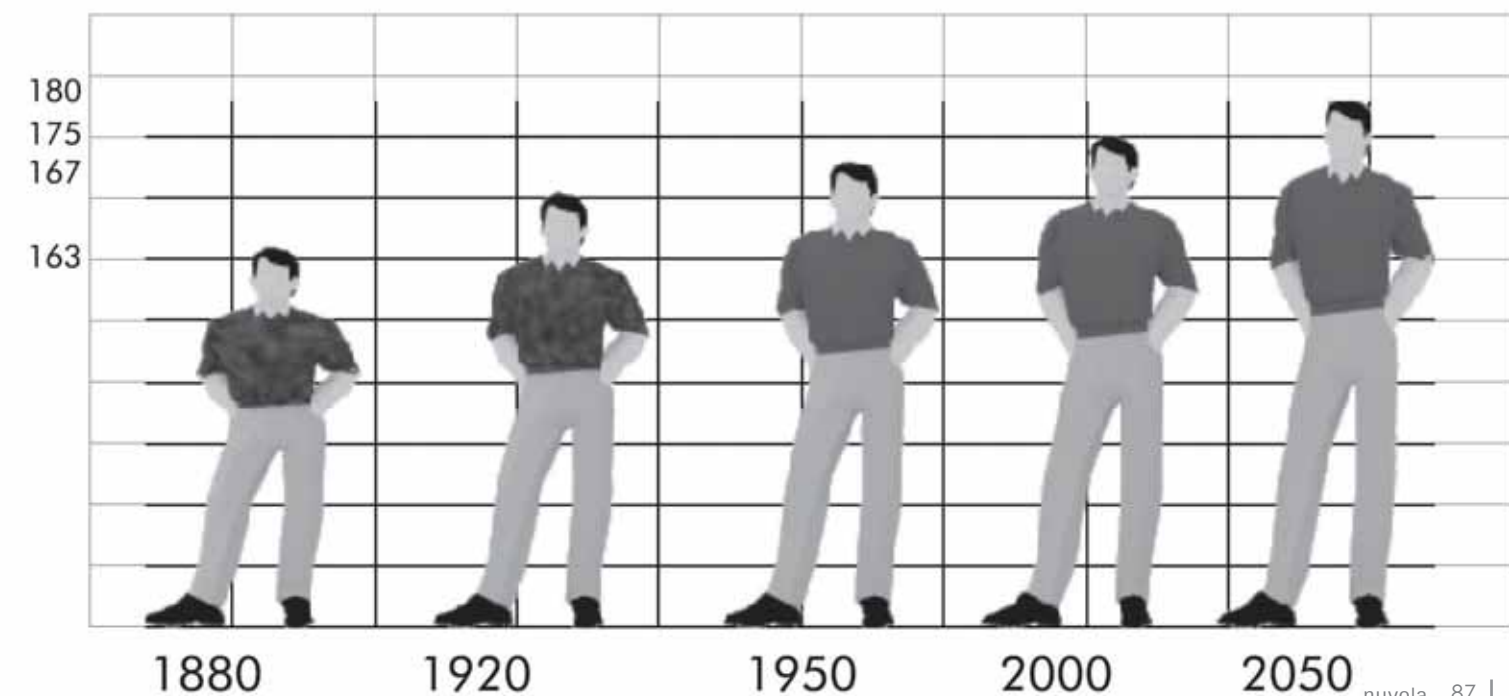

Australia. 177cm

H48 was conceived to facilitate the sitting, meeting the new ergonomics needs. As well as the Nuvola collection, H48 is available both floor or wall trap.

scarico traslato

Alla ricerca di nuove soluzioni tecniche, per andare incontro alle esigenze del mercato nazionale e internazionale, il centro di ricerche AZZURRA, ha portato a termine una nuova soluzione **per agevolare le ristrutturazioni**. Il nuovo wc NUVOLA, può essere installato senza dover ripristinare impianti di scarico esistenti. Con un range di 160 mm di interasse, lo scarico a terra può essere montato in quasi tutte le situazioni esistenti. Partendo da una attenta ricerca, i vecchi impianti riportano uno scarico tra i 60 e i 220 mm di distanza dal muro (misure dell'interasse). Attraverso un'attenta e meticolosa ricerca, senza modificare l'estetica del pezzo, NUVOLA traslato, risolve pienamente una problematica progettuale, che soddisfa l'utente finale con un ampio risparmio economico.

adjustable flush system

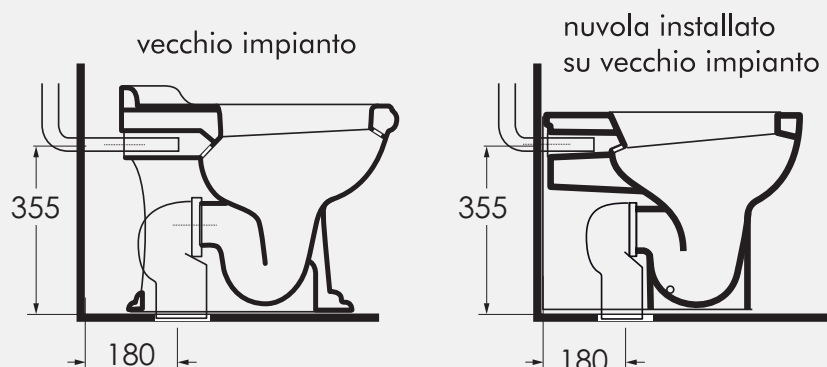

Looking for new technical solutions to meet national and international market demands, Azzurra research laboratory has studied a new solution to easy bathroom renovations. New Nuvola WC can, in fact, be installed without renovating existing installations or having to perform masonry works. With a range of 160 mm. center to center distance, the ground discharge can be mounted in several existing situations. Old installations, in fact have a distance to the wall ranging from 60 mm. to 220 mm. Nuvola adjustable flushing system, avoids, replacing each time different types of existing installations. All this can be achieved without changing the aesthetics of the piece and with a large cost savings.
