I wc terra e sospesi scaricano fino a 2,7 lt invece dei tradizionali 9 lt.
Floor and wall hung WC range flushes up to 2,7 litres instead of the traditional 9 lt.

Copriwater THIN

Il coprivaso thin è espressione di un design basato sulla filosofia della dematerializzazione.

I soli 25 mm di altezza totale ne fanno il coprivaso avvolgente più sottile al mondo, realizzato in termoindurente. Ridurre la quantità di materia utilizzata oltre a far bene al pianeta ha migliorato l'estetica del prodotto mantenendo inalterate tutte le sue funzionalità. Un'altra importante innovazione Azzurra che fa della sostenibilità e della ricerca che produce bellezza i suoi valori fondativi.

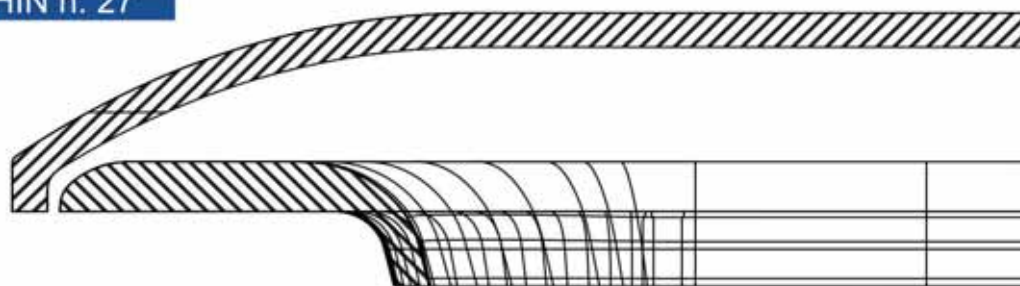

Thin seat cover is expression of a design based on the philosophy of dematerialization.

Its total height of just 25 mm makes it the thinnest wrap around thermosetting seat cover in the world.

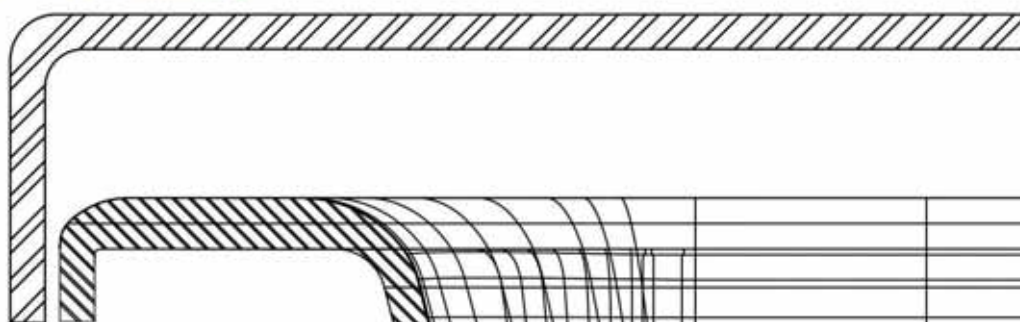

Reducing the amount of the material used is not only good for the planet, but has improved the look of the product, yet maintaining its functionality. Another important innovation from Azzurra, which has between its founding values sustainability and research that produces beauty.

I sanitari della collezione THIN, in base alla normativa europea UNI EN 997:2007 per i vasi in CLASSE 2, effettuano uno scarico completo monoflusso utilizzando fino a 2,7 litri d'acqua associandoli alle placche/cassette di scarico AZZURRA.

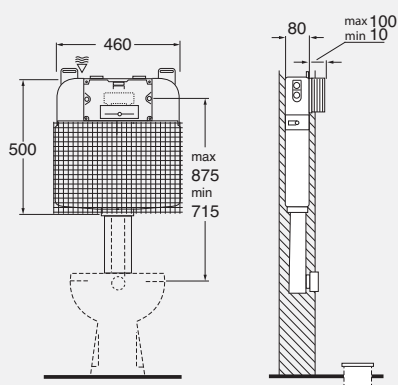

THIN sanitary wares collection, combined with AZZURRA plaques/flushing cisterns is able to make a complete flush with a single flow using up to 2.7 litres of water, according to European standard UNI EN 997:2007 for CLASS 2 WC.

Il sistema 2,7 lt funziona con la placca standard utilizzando il tasto "scarico ridotto"

Placca monoflusso in produzione gennaio 2011
